- ✓ 4–7 hours battery operating life
- ✓ Can be used near swimming pools

Bluetooth

3 | RCS 'Digital Sound' Centre DSC-150' Sound System

The powerful loudspeaker and amplifier system for schools, hotels, swimming pools and sports events. With a 150-watt amplifier, this system is especially powerful and guarantees first-class sound. Low power consumption and long battery life ensure optimal music playback from CD, MP3, USB and SD card for many hours. The strong, shock- and scratch-proof plastic casing is extremely durable. The amplifier is thereby very well suited for mobile use. Pre-assembled castors and an

extendable handle make transporting the device easy. 2-way system. Power source: 230 V or battery. Battery operating time: 4–7 hours. Dual tone control. **Please note: the device must not be permanently stored in damp areas.**
